WORK EXPERIENCE

Environmental Auditor

Egreen (2021-2022)

- Support in various environmental audits in the livestock field. The work was carried out in field with a professional audit, providing environmental education and assessment of operations, which then was presented to stakeholders and directives.
- Collected and prepared data for creating visually appealing slides with relevant data visualizations and pictures captured during the audit process. Presented these slides to stakeholders, ensuring effective communication and engagement.

Customer Service Agent

Avas Flowers (2019-2020)

- Provided professional customer service to customers in United States with the help of customer data and inside-company applications.
- Solved logistics and sales problems through analysis in the company's data base.

Freelance Teacher

Independent and Social Service (2017-2020)

- Developed educational content and imparted music classes mainly focused on rhythm and music theory.
- Participated in environmental education projects with communities and students.
- Taught ashtanga yoga and personal development to several students in university.

LANGUAGES

- Spanish: Native
- English: Bilingual
- Japanese: A1
